## 20th Christmas Art Show Set Next Monday at GCHS

The 20th annual free Christmas art show will be held at 7:30 p.m. next Monday in the Granite City high school auditorium under the direction of Eugene Alassi, school district art director.

Numerous centerpieces and Christmas figures being made of styrofoam and evergreen by junior and senior high school art students will be displayed. 75 of them will be given away to the audience. 101 unusually wrapped package ideas will be shown, and home exterior and interior decorating schemes will be explained.

Alassi suggested that because of a limited seating capacity, the interested persons should make it a point to come early as none of the seats will be reserved. The show has drawn capacity audiences in past years.

The art director said that evergreen pieces may be eliminated from the program starting next year unless a new source of supply has been found. He said the evergreen trees at his

present source in southern Illinois are growing too tall and the boughs are too difficult to reach.

### Contents of House Damaged by Vandals

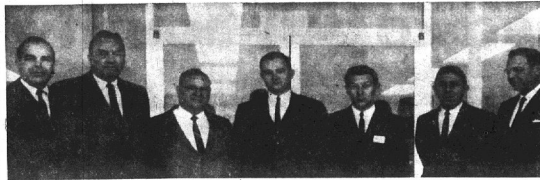

Vandals did a considerable amount of damage to the contents of the home of Mrs. Wilma Hamby, 1714 Delmar avenue, she reported at 6:30 p.m. Wednesday.

All of the clothes were taken out of a closet and thrown on the floor. Shoe polish, soap powder, shortening, cereal, salad dressing and fingernail polish were poured on them.

A photo of her baby was cut and painted with fingernail polish, and her television set was marred with the polish. A sofa, baby bed and a double mattress were cut. Shortening was thrown on a mirror, and a frozen pie was smeared on the bed. There was no sign of a forced entry.

### GC Man Robbed at Tavern

Alex Dumoulin, 23, of 2631 Iowa street, was robbed of his jacket and \$20 by a group of men as he left the Redtop tavern, Centreville township, St. Clair county, at 1 a.m. Thursday. A companion, Melvin Edler, 46, of St. Louis, lost his jacket and \$8 to the men who fled on foot. They said they were strong-armed.

### Teenagers Face New Insurance Rate Hike

Stiff hikes in auto insurance rates for teenagers and younger men will become effective Jan. 1 under a new insurance rating system, but older drivers with greater experience should receive the benefit of some decreases, insurance representatives pointed out here today.

Under the new schedule rates for younger male teenagers will jump substantially, with smaller hikes for others, classified in different categories. Some drivers, however, will actually pay less under the new rating system.

There will be one rate for drivers 17 or younger, another for those 18, with different categories year by year. Premiums will be highest for younger drivers because experience in meeting claims shows they are the poorest risks as a group, the new rating lists disclose. Premiums go down as the driver gets older and gains more experience and maturity.

Premiums also will be lower for those youths up to the age of 21 who have completed recognized driver training courses. The new ratings also will increase premiums for most single male drivers between 25 and 30, reduce premiums for married men 21 through 24, and women between 30 and 64. They will have little effect on male drivers over 30 with good driving records, with some reductions in the higher age brackets.

The new system will cover liability, collision and comprehensive insurance. The system was worked out by the National Bureau of Casualty Underwriters and the National Association of Auto Underwriters. Application to comprehensive is a new factor.

## Four Belleville Players Honored; Wood River's Grimsley Unanimous

Five Granite City Warriors, key players in the high school's winningest football season in 18 years, are members of the Press-Record's seventh annual All-Southwestern Conference team.

Fighting Warriors on the team are co-captain guards Ernie Kern and Jerry Lybarger, center John Evenden, end Joe Hauptman and halfback Nick Petrillo. Tackle Jerry Line is on the second team.

Due to deadlocks in the final balloting, this year's first team includes 13 players with three halfbacks and two fullbacks—but keep your hand off that red flag, ref, this is purely a mythical team.

Co-champion Belleville placed four on the team. Collinsville tied with Granite City for third place. End two co-champions East St. Louis one and fifth-place Wood River one.

Participating in the voting were the Southwestern's seven head coaches: Bob Fraza, Belleville; Fred Cameron, East St. Louis; Jim Morrison, Granite City; Vergil Fletcher, Collinsville; Wayne Williams, Wood River; Ralph McClain, Alton, and Pat Price, Edwardsville.

"The great thing about the five on our team who were selected," said Granite City's Morrison, "is that you could take those five off, put on the other six of our starters and there wouldn't be much difference. All our boys were all-conference material."

Hauptman Showed Desire

Morrison described Hauptman as possibly the finest football player on any team I have coached—he had a terrific desire to play and was tremendously aggressive. Constant work with weights and frequent roadwork helped make Hauptman a 220-pounder of the strongest kid you could ask for," he said.

Hauptman, who started the season at defensive tackle and later moved out to end, was a defensive standout. On offense, he caught three passes—two for touchdowns—did all the punting (a 35-yard average), and six conversion kicks were among his 18 points.

Petrillo, a compact 5-foot-4 and 155 pounds, "overcame the attitude that this is a big man's game," said Morrison and laughed. "You know, there are two kinds of tackle, Nick's size, the quick and devious, and the dead."

Petrillo, who bounced off would-be tacklers like a rubber ball, carried 111 yards for 582 yards and a 5.2 average. He caught 11 passes for 116 yards and scored 11 touchdowns for 66 points, tying for fourth highest score in the area.

The other player with 66 points, incidentally, was Belleville's Glenn Pool, who also tied Petrillo in the balloting. Petrillo succeeds his 1963 teammate Joe Hiles as all-conference halfback.

Terrific Middle Three

"Offensively, you couldn't ask for a better middle than those three gave us," Morrison said of Lybarger, Evenden and Kern. Evenden, whose 255 pounds made him a valuable defensive guard and tackle, is Granite City's second straight all-conference player at center. Mike Rousseau was named last year.

John made a difficult switch from defensive tackle to offensive center and you have to give a lot of credit there to coach (Stan) Wojcik," Morrison said. "And, on his own, he developed the

## Two Warriors Are All-State

Two Granite City high school football players have been named to all-state teams selected by Illinois newspapers.

End Joe Hauptman was among the 44-player team named by the Chicago Daily News and tackle Jerry Line made the 33-man unit selected by the Champaign-Urbana News-Gazette.

Other Southwestern Conference players on the daily News team were fullback Clyde Kuehn of Belleville, halfback Jim Riests of East St. Louis and Mike Waitukaitis of Collinsville.

## Becker Helps Army Team

Pfc. Fred Becker, former Madison high school football player, was a member of the 32nd Delta Processing Unit flag football team which finished fourth in the 4th Army championships last week at Fort Sam Houston, Tex. Becker, who sustained a dislocated bone in his foot at the tournament, was a key player as the DPU team won the Fort Hood title to advance to the finals.

## Traffic Forum Is Set

Police Chiefs Raymond Willard, Granite City, and Frank DeWitt, Venice, are to attend a traffic forum in Belleville on Thursday, sponsored by the Automobile Club and the Illinois Municipal League.

Only unanimous choice on the team is Mike Grimsley, the Wood River's Oilers. A head youngster, coach Williams let him personally call about two-thirds of the team's plays.

The one-man gang completed 57 of 119 passes for 687 yards and six touchdowns and ran for 13 more, accounting for all but three of the Oilers' 78 points made him runner-up to Kuehn in the area.

# Spartans Find Way, Defeat Trojans

Sparta's Bulldogs may not be the best at reading roadmaps, but they can find their way around the basketball court quite well, thank you.

The Sparta high school basketball team found their way to the MIHS gymnasium (a hit late) and battled to a 54-49 triumph.

Despite a late rally, the Trojans fell just short of closing the gap on the Bulldogs. Sparta led all the way, with a 24-16 half-time lead and a 38-32 edge after three quarters.

"We need a lot of work on our defense," said Madison coach Earl McCannahan, "and we've got to find some help for (Paul) Lusk and (Dale) Turner—they can't do it all."

The Trojans outscored Sparta in field goals, 20-18, but the Bulldogs prevailed from the free throw line by making 18 of 28 shots to Madison's nine of 19.

**Last Quarter Excitement**

After their slow start, the Trojans caused excitement in the large opening night crowd by putting the pressure on in the late going. They closed to within four points (38-32) late in the third quarter.

In the fourth quarter, they had several chances to close the gap but couldn't quite do it. The Bulldogs led by seven (52-45) when they started a stall with 2:15 left in the game and forced the Trojans to foul for possession.

Gene Laws paced Sparta with 18 points, Norris Leslie had 16 and Terry Rosting bucketed 12. The Bulldogs also defeated Madison in last season's opening game.

**MAIN SPEAKER** at annual Granite City high school fall sports awards banquet Wednesday night will be University of Illinois football coach Don Devine. Building Mizou's Tigers into a major college football power, Devine has a 50-18-4 record in seven seasons at the school. The record includes two Orange Bowl games and one Bluebonnet Bowl appearance. So far, there are 330 reservations for the 6:30 p.m. emorgasbord in the GCHS cafeteria.

## Roxana First Foe For Green Warriors

Down to one returning letterman, the Granite City high school basketball team opens its season tomorrow night in a non-conference game at Roxana.

The contest will be an important test for the Green Fighting Warriors. They'll have to get their game legs quickly, for their home opener is Friday night against the always-tough Collinsville (Katholick).

Heading up the probable starting lineup named by coach Andy Sullivan is the lone letterman, 5-8 guard Vince DeWeese. The other returnees, guard Jerry Lybarger, is still sidelined with a football arm injury and is likely to be out until after Christmas.

Other starters are guard Larry Dillard (6-0), center Ving Kamborian (6-4) and forward Gus Grobolski (6-2) and Bill O'Neill (6-4).

O'Neill, however, has been ill and may not be ready by tomorrow night. If not, his spot will be filled by 6-1 Elmer Worthman. Grobolski has been a pleasant surprise for Sullivan. Now a senior, he did not play his sophomore year due to knee trouble and was out from the squad last season after unimpressive play in tryouts.

"But he's been our best rebounder in practice," said Sullivan. "He's worked a lot since last year and looks altogether different."

**Top Reserves**

Sullivan named 6-3 1/2 Forward Swan, 5-7 Mike Pritchard, 5-10 Larry Ripka and 6-4 1/2 Terry Moore as his top replacements. Swan, a junior, did not try out last year and Moore, sophomore and brother of ex-GCHS star George Moore, is up from the Collinsville junior high team.

"We've been looking pretty good in practice," Sullivan said, "but with all the inexperience we're of unknown quality. We're ready for a real game, you can go just so far in practice."

Roxana's Shells lost their opener to Triad 75-33 but lost four regulars back and are expected to win considerably more than the two games of last season. Herlan Edwards, ex-Alton coach, is the new Roxana mentor.

## Calls to Santa Go Astray—Misdialed

Many children in the  
Quad-Cities intending to  
phone Santa Claus are get-  
ting the wrong number, all  
to the consternation of one  
resident who has a number  
similar to St. Nick's.

She complained that she  
received about 75 telephone  
calls Thursday, all from  
children who had misdialed,  
ruining an otherwise happy  
Thanksgiving Day.

The Associated Retailers  
& Civic Association is asking  
parents to dial the correct  
number for the children. It  
is TR 7-8711.

## IFT Proposes 50% Hike In School State Aid

Local members of the Illinois  
Federation of Teachers were ad-  
vised Friday that the executive  
board meeting in Springfield has  
proposed that the Illinois Gen-  
eral Assembly next year increase  
state support for public elemen-  
tary and secondary school educa-  
tion from the present level of  
19% of the total cost to at least  
30% in the next biennium and  
to 50% by 1975.

The board of the statewide union  
also proposed the increase should  
be effected by raising the  
foundation level of school sup-  
port which provides the basis for  
determining the amount of spe-  
cial equalization aid which school  
districts receive.

To reach the increase, the  
foundation level of support  
would have to be increased to  
above \$400 per pupil in 1967, a  
figure \$46 per pupil above the  
increase proposed by the state  
superintendent and the Illinois  
Education Association, according  
to Oscar A. Weil, executive ac-  
c secretary of the union.

## Car Stripping Referred To Sheriff in 4 Calls

Madison police reported today  
that a car stolen in Madison  
last stripped of four wheels,  
tires and the radiator on Hill  
street in Eagle Park Acres, and  
was towed away a day later by  
the sheriff's office after four  
calls had been made to the sher-  
iff's office notifying deputies  
where the car was located.

The report said the sheriff's  
office was given a report by  
Madison police that the car was  
being stripped by two men, later  
was given a description of the  
car in which the wheels and  
tires were hauled away, and was  
called on two more occasions to  
try to determine disposition of  
the case. The report said the  
sheriff's office on the following  
day towed the car to a garage  
at Routes 111 and 66-40.

News From  
Of The  
Files  
GRANITE CITY PRESS-RECORD

**DECEMBER 1, 1914**

The young ladies of the Pilsenella club, who for several weeks have been working on their big charity ball at the Elks hall Wednesday, Dec. 9, reported today that nearly every member had disposed of 25 tickets, and that the event was assured of success. The indications are that the club will obtain a large sum of money, all of which will be used to relieve the distressed condition of needy families in the Tri-Cities.

Prizes will be given to the dancers who prove superiority. It was announced this morning that the old-time dances on the two-step and waltz will be featured, making it an event that everyone can enjoy.

The tango and other modern dances will have places on the program, however, and the girls have secured several artists from St. Louis who will exemplify the modern parlor and artistic stage dance.

John Chaff, bridge warden for the Illinois Traction Co., covered Monday morning that thieves had broken open six boxes containing lines of fire hose on the bridge and stole the nozzles. The nozzles were cut from the hoses and carried away by the thieves.

The company also discovered that several brass journals had been stolen from the eight cars standing on switch tracks at its freight yards. Absence of journals in the cars could prove disastrous; should their absence not be noted, a serious wreck could result.

Misses Wella Mueller and Rosa Heller, both of the Tri-Cities, were taken from the files of the Granite City Press-Record.

**THURSDAY, NOVEMBER 30, 1939**

The lobby of the Madison Hotel office is this week being decorated with a large mural painting, theme of which is "The assimilation of the immigrant within the industrial life of Madison, Ill."

The painting is being done by Raymond Katz, muralist of the district in Chicago. World's Fair, the poster girl advertising the World's Fair and the Will Rogers mural in the Chicago Will Rogers Theatre.

For the first time in the history of the St. Louis District Tennis Association, top honors in the junior rankings for 1939 were claimed by Granite City when Norman Wendell placed first in the singles ranking and the team of Wendell and Charles Libby, another Granite City youth, gained the No. 1 position in the doubles.

Norman, son of Mr. and Mrs. Harry Wendell, earned top position in singles when he defeated district junior champion at Shaw Park, Clayton, and likewise captured the doubles title with Libby. In a career at Granite City high school, Wendell swept through all opposition and won both the conference and district championships.

Eight Madison high school athletes yesterday filed their entries for the Turkey Run, annual country race, scheduled for the Ozark AAU, which will be a feature of half-time activities at the Washington, St. Louis football game next Saturday at Francis Field.

The Madison runners, who have been working out for a month in preparation for the event, are: Dick Dankenbarger, Marvin Jordan, Donald Gerber, Joe Hentz, Lucien Danstetter and Rene Tenney.

Representatives of the Catholic Youth Organization of the Tri-Cities met at St. Mark's Church in Venice, to form a council for the area. They also met to elect officers and to start committees for participation in recreational activities between the four parishes represented.

St. Mary's, St. Joseph's, St. Martin of St. Joseph's parish was elected chairman of the Tri-City Council, with Dick Kehanan of Sacred Heart secretary. The remaining business of the meeting was taken by appointment of committees and scheduling of inter-parish activities.

The ping pong and softball leagues will open competition on Jan. 1.

Fifty-one scholars of the Niederrhine Memorial High School were given awards for perfect attendance for one or more years. Rev. Omar E. White, pastor, and Mrs. E. White, principal, presented the awards.

Revised Precincts, Updated Laws, Zoning  
Are Worthwhile Granite City Objectives

Granite City council members have embarked on three studies which could lead to significant improvements—unification of city and township precincts, classification of city ordinances and updating of zoning rules and records.

With equalization of city and township precincts, the city is looking into ways of ending the confusion stemming from differing precinct boundaries and polling places.

A new factor is being taken into account by the city in its zoning studies. The city is looking into ways of ending the confusion stemming from differing precinct boundaries and polling places.

Compilation of city laws into a single booklet, with provision made for new ordinances to be added, would aid lawmakers, enforcement authorities and citizens in familiarizing themselves with what rules have been established. Such knowledge is vital in successfully administering existing laws and determining how or if they should be revised as the years go by.

Because the Granite City zoning program has been in effect for a number of years, amendments which have been authorized make it more and more difficult to reach informed decisions on change requests unless all records are kept up-to-date. Patterns of use, however, need to change as new construction and living trends emerge. If steps can be taken to make present and proposed laws better known, widespread understanding and compliance can be achieved and zoning can serve local citizens even more capably than in the past.

### Official All-Conference Football Teams Announced in Press-Record

The Press-Record again this year is proud to present the only official all-conference selections for the football leagues in which Quad-City high schools compete. Voting is done by the coaches, each of whom excludes his own players.

Other newspapers present all-star teams, but less objective methods are used in determining the athletes to be honored. An example of the complete objectivity of the selections announced here was last week's Midwest Conference squad, which entirely omitted Madison candidates. Fortunately, the Trojans placed four on the second team—and have earned numerous varsity berths in previous years. Granite City fared well in the voting among coaches.

The Press-Record salutes the Midwestern standouts and the newly-named Southwestern Illinois Conference all-stars—and thanks the coaches and players, which make the fully authentic selections possible.

**REPUBLICAN PARTY NEEDS TO CREATE NEW IMAGE**

To the Editor:

Soon after the election, President-elect Eisenhower for water agreed that they would bring the hatchet and work for the benefit of the country. Now with the press. Since the election, the headlines have been full of criticism of the Republican party and suggestions on how it can be improved.

I think that the Republicans need to be trained in the art of creating an image in the minds of voters. I am referring to Barry Goldwater being pictured as a Negro hater in spite of the fact that he had been pictured as a labor union buster in the past.

It could also be pointed out that under a system of collectivization, the revenues which permit organized crime to maintain and extend its power, are generated by the state would, in the opinion of police officials, enable law enforcement authorities to further control these unprofitable sources of revenue.

**Simple Change**

It is proposed that the law be amended to make it a crime for a person to knowingly have in his possession a gambling record. This could be done quite simply. The law presently provides that persons who knowingly keep gambling records in the

**Link With Organized Crime**

Police authorities state that such a law would enable them to arrest and convict persons who keep gambling records, which cannot now be prosecuted.

Many of these persons are supposed to be the revenues which permit organized crime to maintain and extend its power. The law would, in the opinion of police officials, enable law enforcement authorities to further control these unprofitable sources of revenue.

### University Can Make Quad-Cities Even More Of A 'Melting Pot'

America is known as the "melting pot" of nationalities, and the Quad-Cities are a prime example. Now, establishment of Southwestern Illinois University seems destined to increase the ethnic diversification here.

Most SWIU students are from the Illinois Metropolitan Area and territory immediately adjacent to it. But current enrollment also includes students from 13 foreign nations, including Greece, Korea and West Africa.

Illinois also is widely represented—57 of 102 counties—as well as 19 other states.

Interestingly enough, the "commuter college" concept has been borne out, and it is far from the full story. Madison county leads with 2980 on the registrar's rolls and St. Clair county is second with 1820. But nearly 1000 students rent rooms and apartments near their class attendance centers.

With the opening of the new campus next September, further expansion of rental housing facilities will be necessary, both in the Quad-Cities and elsewhere for students from both the U. S. and other countries.

**Collector, Santa Sharing Equal Billing**

Efficiency of their government is demonstrated to Madison county residents at various times by problems encountered elsewhere. Another such example has presented itself.

Local tax collection admittedly is slowed down by the delay in setting the East Side Levee District rate at the St. Clair county courthouse, but the cycle still is completed each year well in advance of St. Clair. Now, the latter county is trailing even farther behind than usual; it has announced new rates and bills (1963 taxes for 1964 collection), just in time for the start of the Christmas shopping season.

### Sigma Delta Chi Challenging National Governmental Secrecy

It was brought out earlier this year that governmental practices in the Quad-Cities are sounder and provide more opportunity for questioning than many of the procedures followed in Springfield. Now, Sigma Delta Chi Freedom of Information Committee findings show that numerous archaic spending methods still are being followed in Washington as well.

Citing hidden Congressional spending and undisclosed activities of many Congressional committees and subcommittees, the professional journalism society notified the House of Representatives that it was challenging the secrecy of the committee's findings.

The same committee also has provided food for thought on the president's frequent but unannounced advance news conferences. Some of them offer only limited opportunity for questioning, and virtually all have been limited to reporters on the regular "White House beat," excluding foreign policy, political and defense news specialists.

### Quad-Cities Linked To Largest Electric Power Pool In Nation

Now that Illinois Power Co. is participating with 17 other electric utilities in the Mid-America Interpool, Quad-City will be among the largest work in the United States—the already remote prospect of a Quad-City power shortage has further diminished.

The local firm has been active previously in the Illinois-Missouri Pool, assuring a reserve supply even if a highly unlikely series of events crippled power production in this immediate area. Result of the larger network will be still greater assurance of sufficient electricity to meet all present and future industrial and residential needs.

Democratic party, where their philosophy may be more appreciated.

**CITY WASTING TAXES, IGNORING PROBLEMS**

To the Editor:

Many candidates of both party have been promising to bring the rubber stamp idea of the city back away and survey the result—the gains and services and the constant increase in tax dollars. ## THE PASTOR SPEAKS

REV. G. LEWIS KUJAWSKI  
First Church of God

Many times we become confused by earthly values, and we become so engrossed in our own little desires that we fail to stop and realize what salvation is all about.

Salvation is the means by which God makes it possible for us to be in close contact with Him. We cannot be like God, or like Christ His Son, unless we live the kind of life that makes it possible for the Holy Spirit to reveal Himself to us.

Here are some pointers that will help you to know the way to salvation and to receive the love and power of God:

1. BELIEVE ON THE LORD: Romans 10:9-10: "But what saith the Lord? 'Thou shalt believe in thine heart and in thy heart; that is, the word of faith, which we preach; that if thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised Him from the dead, thou shalt be saved.'"

2. READ THE BIBLE: Each day. Psalm 119:11: "Thy word have I hid in my heart, that I might not sin against thee."

3. PRAY: EVERY DAY: Matthew 26:41: "Watch and pray, that ye enter not into temptation: the spirit indeed is willing, but the flesh is weak."

4. WITNESS FOR JESUS: Ephesians 5:1: "Let your light so shine before men, that they may see your good works, and glorify the Father who is in heaven."

SAFEGUARD YOUR HEALTH  
A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY

**EARLY DETECTION BEST RETARDATION WEAPON**

Will our child's development be healthy? Mentally, as well as physically?

If you are a parent or parent-to-be, you've probably pondered that question many times. In large measure, the answer depends on the care you give in the first few months of your child's life.

Medical research has found that many of the 200 known causes of mental retardation have a physical basis—such as injury at birth, infections or inborn errors of metabolism.

Many of these conditions can be corrected before they have a chance to damage your child's mental health.

A classic example is the condition known as phenylketonuria. This disorder, which accounts for one per cent of all children institutionalized because of mental retardation, starts out as an inborn inability to digest a common food protein.

**Simple Test**

By a simple chemical test, a pediatrician can diagnose PKU as early as three to six weeks after birth. With early detection, your physician can also prevent mental retardation from the following causes:

1. CRETINISM: This disease is due to poor thyroid function in infants—can be detected by early chemical blood tests and treated effectively with modern administration of thyroid substance.

2. GALACTOSEMIA: An inborn inability to digest the sugar galactose, this disease can cause severe mental retardation and cataracts. Prevention is possible.

## State Oks 18 Appraisals For Nameoki rd. Project

"A slow process," City Atty. George Filloff Jr. said Friday, commenting on the work of processing legal data for acquisition of right-of-way for the Nameoki road widening project north of Madison avenue. The city now has approval of 41 of the 49 property appraisals, including 18 received last week. Six are still in the hands of the state highway department. Filloff said that of the 49 parcels of property to be acquired for the widening to 11 lanes, he has agreements for 11, four are under negotiation and six will require condemnations. These do not include the 18 for which state approval of appraisals was received last week. The city attorney said he

must now get title reports on the 18 parcels. "That will take some time, because the title company has informed me they are annoyed under with work. In fact, it has been four weeks since I turned over several reports to them, and the title reports aren't ready yet," he said. Work on the Nameoki road widening has been pending for five years for the section north of Madison avenue, and it has been on the state's yearly work list for the past four years. The state is to finance 90% of the project, with the city responsible for the remaining 10% which includes right-of-way acquisition with motor fuel tax funds. City council members have expressed hope the work will be started next spring.

## Bid Opening Dec. 7th For Work on 6 Streets

Bids will be opened at 3 p.m. next Monday on the resurfacing of sections of six concrete streets in Granite City. The council has voted to use sales tax funds for the project. No cost estimate has been given. The bids will be received in the office of Comptroller John Dober and are to be submitted to the council during a meeting at 8 p.m. The work is to consist of a prime coat, a one-inch binder bituminous concrete surface and a one-inch 1-11 bituminous finish coat. Included are the 2600 blocks of Cleveland blvd., Delmar avenue, and Edison avenue; about 200 feet in the 2500 block of Benton street; 20th street between State street and Niedringhaus avenue, and about 125 feet at the intersection of Vesel and Spalding avenues.

## Boys, 12 and 14, Almost Hit by Train in Yards

Two boys, 12 and 14 years old, were released to their parents by Venice police Thursday after they had been picked up by a GM&O Railroad agent in the rail yards near Kepp street after the boys almost were struck by one of the cars of a passing freight train. Venice police said the boys were apprehended after they had torn a quantity of lumber from a vacant house in the area and were carrying it on a cart through the rail yards. A car on a passing freight caught on part of the lumber sticking out from the cart and the impact almost threw the boys into the path of the moving freight car, the agent said.
